

CAREER OBJECTIVE

Software Engineer with hands-on experience developing backend applications using Java, Spring Boot, Spring Security, JPA/Hibernate, REST APIs, and MySQL. Strong foundation in Data Structures & Algorithms, OOP, DBMS, and backend system development, with experience owning features from API design to database integration.

EDUCATION

Acropolis Institute of Technology and Research	Indore, India
B.Tech. in Computer Science & Engineering CGPA: 8.13/10	November 2022 - June 2026
S.I.C.A Senior Secondary School	Indore, India
Class XII (CBSE) 83.4%	April 2021 - July 2022

SKILLS SUMMARY

- **Programming Languages:** Java, SQL, C++
- **Backend Technologies:** Spring Boot, Spring Framework, Spring Security, Hibernate, JPA, JDBC, REST APIs
- **Database:** MySQL
- **Testing:** JUnit 5, Unit Testing
- **Developer Tools:** Git, GitHub, IntelliJ IDEA, Eclipse, Spring Tool Suite, VS Code, Postman, Maven
- **Core CS:** Data Structures & Algorithms, OOP, DBMS

TRAINING

FULL STACK JAVA DEVELOPMENT TRAINEE	July 2025 – August 2025
○ Completed an intensive, hands-on Java Full Stack training program, covering backend (Java, Spring) and front-end integration. ○ Worked with mentors to improve debugging efficiency and code quality.	

PROJECTS

Job Portal Backend Developer	August 2025 – December 2025
○ Developed RESTful APIs using Java and Spring Boot for job, company, user, and application management. ○ Implemented JWT-based authentication and role-based authorization using Spring Security. ○ Designed relational database entities and relationships using Spring Data JPA/Hibernate with MySQL. ○ Built searchable and paginated job APIs supporting filtering by title, location, and company. ○ Implemented request validation and centralized exception handling to improve API reliability. ○ Tested REST endpoints and authentication flows using Postman.	
LINK	
Events Hub Backend Developer	August 2025 – November 2025
○ Developed REST APIs for event management, user profiles, and HackFinder team posts using Spring Boot. ○ Designed MySQL database schemas for users, roles, events, and HackFinder listings using JPA/Hibernate. ○ Implemented role-based authorization to restrict event and post management operations based on user roles. ○ Developed CRUD operations and API integrations while maintaining data consistency across related entities. ○ Collaborated on backend architecture and independently delivered assigned modules end-to-end.	
LINK	

CERTIFICATES

Programming in Java — NPTEL, IIT Kharagpur Elite + Silver CERTIFICATE	July 2025 – October 2025
○ Developed strong proficiency in object-oriented programming (OOP) concepts including inheritance, polymorphism, interfaces, and abstraction. ○ Gained hands-on experience with exception handling, multithreading, and core Java APIs, strengthening problem-solving and application design skills. ○ Achieved an Elite + Silver Badge, reflecting high performance and strong conceptual understanding.	
Getting Started with Competitive Programming — NPTEL CERTIFICATE	July 2024 – October 2024
○ Built foundational skills in competitive programming and algorithmic problem solving. ○ Practiced basic data structures, logical thinking, and time-space complexity analysis through problem-based learning.
